

I have received a letter from my favorite radio station K-Love, 106.7 FM stating that they need my opinion of K-Love to be sent to the FCC to help keep them on the air.

For over 4 years, I 've been a faithful listener to K-Love at 106.7. My radio hardly ever leaves this station. The Christian music they play is more than just "good music". It is life changing music. There are few Christian stations available in my area, and the thought of losing this one, is very disheartening. I am confident that it would not be replaced on my dial with another station, but I would start listening to CDs all the time, not only by me, but also by my family. K-Love is Christ oriented and its a clean station that I never worry about having on while children are in my car. Please do not do anything that could remove this station which sends the valuable message of Christ's love to a world who so desperately needs to hear it.
